

## Welcome To Youth Wraparound!

The staff of Youth Wraparound would like to welcome you. It is important we will always treat you with respect, keep our appointments or call in advance to reschedule. We will help connect you with services, and work toward developing skills to use in daily life. We ask if you have appointments to be cancelled or changed please just call in advance and we can easily reschedule. Our team is excited to be working with you and help you move closer toward goals you have established. We understand that real life happens so good communication will be crucial.

During the initial screening and assessment process you were provided with a Welcome Packet, information on how to get an Advanced Healthcare Directive, Mental Health Contract Provider List, Medi-Cal Mental Health Services, Notice of Privacy Practices and Crisis Card.

Please read through the material provided and if you have any questions please bring them to you next appointment. The goal of Youth Wraparound is to provide stability and identify steps we can take to help you no longer need specialized mental health services. We can do that by working together and communicating together. During the week an "officer of the day" is available if you have a question or need help, simply call **(661) 868-8300**. And there is always the Crisis Hotline, which is available 24 hours 365 days each year, simply call **1-800-991-5272**.

Again, welcome to Youth Wraparound, we are here to help you.

Sincerely & respectfully,

A handwritten signature in blue ink that reads "Brad Davis II".

Brad Davis II, LMFT  
Behavioral Unit Supervisor II, Youth Wraparound  
(661) 868-6475
